- 1. The data used in calculating rate base are averages.
- 2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
- 3. Note: Do not include property held for future use or construction work in progress with utility plant in service. These are not rate base components.

1999 Analytical Review DWCCA-1435-ELE

Dear Ms. Padgett:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

- 1. We noted 0 kWh is reported on page W-10. Since \$3,143 is reported for fuel used for pumping on the Water Operation & Maintenance Expense schedule, and electric pumping equipment dollars are reported on the Water Utility Plant in Service schedule, we believe electricity is used for pumping and kWh should be reported on this schedule. Please provide the kWh used for pumping and follow this procedure in the future.
- 2. We noted there are 555 services reported on the Water Services schedule, but only 459 customers reported on page W-02. We also noted 0 services not in use reported on the Water Services schedule. Please provide the number of services not in use, or otherwise explain why there are significantly more services reported than customers.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-3768. Please respond within 30 days of this letter. If it is convenient for you to respond by e-mail, please

do so. My e-mail address is engele@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Elaine Engelke Financial Specialist Division of Water, Compliance, and Consumer Affairs
